

AUGUST 2009

WASHINGTONIAN

The 299 Best General Dentists, Orthodontists, Oral Surgeons, Periodontists, And Other Specialists Who Can Take Very Good Care Of Your Teeth.

2009 TOP DENTISTS

How were these top dentists chosen?

By their peers. To put together the list, we first mailed surveys to more than 1,500 randomly chosen dentists. Dentists see one another's work, so we asked them to name the general dentists and the specialists to whom they would send a member of their own family. The practitioners who received the most recommendations are listed here.

ORTHODONTISTS
